Economy in Teaching Spelling

Save time and effort
and—*get results*

Do you know:

- 1 That the high-school graduate misspells more than 1 word of every 100 he writes?
- 2 That 500 words cause 80 per cent of these misspellings?
- 3 That there are specific causes for much of this misspelling?
- 4 That by removing these causes you can enormously reduce high-school misspelling at the cost of 5 hours of class time?

New Edition of THOMAS, HOWE, AND O'HAIR'S COMPOSITION *and* RHETORIC

English teachers will be interested to know of this new edition. The earlier edition has been completely revised and rewritten, somewhat rearranged, and much improved. It has been made thoroughly inductive. Wherever possible the text has been simplified and made more direct and practical.

Composition and Rhetoric. By CHARLES SWAIN THOMAS, Newton (Mass.) High School, WILL DAVID HOWE, Indiana University, and ZELLA O'HAIR, Shortridge High School, Indianapolis. 512 pages. \$1.20.

ENGLISH LITERATURE

By HERBERT BATES, Manual Training High School, Brooklyn, N.Y. 618 pages. \$1.50.

Characteristic of this text is the vivid picture portrayed of the conditions of life out of which the literature sprang. Specially to be noted is the American point of view throughout.

Formal biographies are avoided, the aim being rather to explain an author's work and to show how it reflects his life and thought, the spirit of the age, and the ideals of the nation. Numerous selections from literature are therefore included.

There is an unusual complement of teaching aids, such as Chronological Charts, Tabular Views of Authors and Their Works, Lists of Recommended Readings, Outlines for Reviews, How to Study Works of Literature, Questions, Bibliographies, Maps, Charts, etc., particularly a Literary Map of England with an accompanying Chapter on English Scenery. The beauty of the illustrations is a notable feature of the book.

Journalism for High Schools

Price \$1.00

By CHARLES DILLON

Class supplies 80 cents

Recently adopted by the Kansas State Text Book Commission for use in all the high schools in the state of Kansas.

Here is the volume teachers of English have been needing—just out, and the only one of its kind in existence—a working plan for journalistic study within the scope of high-school students; highly commended by exacting literary critics with high-school experience as teachers, and reviewed by more than a dozen editors before issuing.

A high-school paper, properly managed, which means with faculty supervision, will provide probably the most attractive form of laboratory for students in an English course. In no better way, perhaps, can instructors impress upon students the importance and dignity of good English while at the same time discouraging the wasted effort spent in silly writing so frequently characteristic of high-school and college papers managed by students. The news assignment gains a boy's or girl's attention instantly while the writing of 500 words about Charles Dickens is neglected. The interview with superintendent or principal, banker or merchant, for the afternoon paper, with the knowledge that if properly written it will be printed, is a vastly more attractive assignment than the more sedate but equally necessary study of a classic. But the practice described does something much more important than provide entertaining writing. It develops in the keen-witted student a real understanding of the tasks that have been so burdensome, and gives him a new viewpoint, a new attitude toward his English.

The Greek Theater and Its Drama

By ROY C. FLICKINGER

Professor of Greek and Latin, Northwestern University

THE noteworthy features of ancient drama and its production, which are usually regarded as unrelated, have been marshaled by the author under one co-ordinating principle. The material is freshened at every point by conclusions of the latest investigators. The range of topics discussed is unusually wide; scores of books, magazines, and monographs would be required to obtain the same information. Moreover, the results of the author's own researches appear on every page. The illustrative material is profuse, and much of it appears now for the first time. The bibliographical references are sufficient to put the reader in immediate touch with latest and most significant works in the field.

A full General Index makes it easy to reassemble the material and examine it from a different point of view. To any serious student of the drama, whether ancient or modern, the work is indispensable. It is written in a style attractive to the general reader, and presupposes no knowledge of the Greek language.

The complete Index of Passages which is appended to the volume will enable teachers to emphasize the salient points of antiquarian interest in any play which they may be reading with a class.

STUDIES IN LITERATURE

*A volume of intimate, lifelike studies of all the
important writers of essays from
Montaigne to Stevenson*

ENGLISH ESSAYISTS

By WILLIAM HAWLEY DAVIS, A.M.

Professor of English at Bowdoin College

Cloth, 12mo, \$1.25 net

English Essayists cannot fail to delight any lover of essays, for the author not only gives remarkably vivid and appreciative sketches of the writers of whom he writes, but he also proves himself to be an essayist of the first rank.

"I am delighted with the book; I hope Mr. Davis will bring out other works as time goes on. I believe that he has a vision of making *real* his writers that he brings out, and we feel, or I do at least, that I actually have a personal interest and friendship with these several essayists. Mr. Davis has made the authors as lifelike as Addison made his Sir Roger de Coverley."

CAROLINE BERRY PHELPS, *Dean of Wesley College*

"Believing that a plodding, matter-of-fact biography is not adequate for real appreciation of the works of the great essayists, the book gives us a handbook which contains all the needed information but which makes fascinating reading as well. The book accomplishes what must be the purpose of every textbook on literature—it leads us to read the works of the authors considered."

BOOK NEWS, *Philadelphia*

"It is just the book for which I have been looking for a long time. In the absence of such a book, I did much work, a few years ago, compiling lists, extracts, selections of essays, etc., for a class of mine which was studying exposition. There will certainly be a need of the book, among the college classes especially."

STUDIES IN LITERATURE

*A manual of English Literature
brief, inspiring, and interesting*

A HISTORY OF ENGLISH LITERATURE

By **ROBERT HUNTINGTON FLETCHER, Ph.D.**

Professor of English Literature, Grinnell College

Cloth, 12mo, \$1.25 net

"This is a manual written with the college student and his needs vividly before the author's mind. Such a student needs his facts, of course, and these are provided in discreet abundance; he needs also clear leading in the terminology and methods of criticism, and just this, in a preliminary chapter, in frequent summaries of men and periods, and in detailed assignments for study, it is Professor Fletcher's distinction to have given with peculiar effectiveness. The author's own studies have qualified him to deal more than perfunctorily with the earlier literature. The frequent introduction of hints as to the pronunciation of proper names is a feature that calls for commendation."

THE NATION, *New York, N.Y.*

"The work covers the whole range of English literature from the Beowulf to Kipling; it is not like a handbook of similar size—a mere primer so condensed as to be meaningless; in fact, the greatest virtue of the book lies in the excellent proportion which the author has preserved throughout it. He has not selected a vast number of minor writers, but a limited number of authors, all of whom he discusses with adequate fulness and scholarly accuracy. An appendix of twenty pages provides a carefully planned scheme of work for one year's reading to accompany this history, a scheme which, although superfluous for the experienced teacher, will prove helpful to the beginner. The entire volume is written in a clear and easy style."

DARTMOUTH ALUMNI MAGAZINE

"There are many things I like about the book. It is comprehensive, yet the author has known how to omit the irrelevant. It is condensed, yet written with a richness of colorful specific detail. The treatment of the individual authors is admirably balanced, and the method for study and the explanatory material for specific works are where they should be."

ALLISON GAW, *Department of English, University of Southern California*
